# SAFETY DATA SHEET

> Update to November 2011

100 ml

### 4. First aid

*Contact with eyes:* remove contact lenses if used, wash carefully and adequately with water; in the event of persistent irritation, please contact a doctor.

*Contact with skin:* wash carefully with water.

*Accidental ingestion:* consult a doctor. Do not induce vomit.

*Inhalation:* take the person in the open air; in case of persistent irritation of the respiratory tract, consult a doctor.

### 5. Fire-Fighting measures

Not inflammable products.

In case of fire use nebulized water, chimica dust, carbon dioxide (CO<sub>2</sub>).

### 6. Accidental release measures

Gather the product and wash with water. Don't pour back the product in the bottle. Don't use it.

### 7. Manipulation and storage

Keep in dry and well-aired places.

Keep away from heating sources or temperature below 5°C.

### 8. Personal protection/Exposure control

Prior to the preparation and application of colour, always wear appropriate plastic gloves. The use of other material gloves isn't advised because they might cause allergic reactions and since they aren't suitable. Always use clean accessories and avoid using nickel-plated tools. Operate in well-aired rooms. Avoid mixture with different or similar products produced by other companies or with different materials not foreseen on the instruction sheet.

*General behaviour rules:* continuous exposition to cleansing agents (soap, shampoo, liquid cleanser) for professional reason may cause a depletion of the lipid coat and the corneus layer, which constitute the natural barrier of the skin. The depletion of this barrier may cause skin injuries and its exposure to the external agents. Under these conditions the handling of other products, normally used during the professional activity, without proper devices may cause an intolerance that may lead to heavier forms. When the employer identifies risks not avoidable with other devices, he must give to the employees Individual Protection Devices (IDP) (Art. 43 D.Lgs 626/94). IDP must be complaint with the rules laid by Decreto Legislativo 475/92 (art. 42 D. Lgs 626/94). Use of IDP provided by the employer is compulsory (art. 5 e 44 d. Lgs 626/94). Prior to the preparation and application of colour, always wear appropriate disposable plastic gloves.

**9. Physical and chemical properties**

Appareance	Compact cream
Smell	Characteristic / ammoniacal
Colour	Characteristic
pH	9.50 – 10.20

**10. Stability and reactivity**

Normally stable at ambient temperature.

**11. Informazioni tossicologiche**

The use of dangerous substances in the product is approved by Legge 11/10/1986 n.713 and following changes and additions and their concentration in the product doesn't cause danger. Repeated contact with skin may cause irritative and/or allergic dermatitis.

**12. Ecological information**

To be used following the normal procedures of a good work by avoiding the dispersion in the environment.

**13. Disposal information**

The product is classifiable as dangerous waste. Disposal of the product: incineration or landfill. Disposal in conformity with the rules in force, through specialized enterprises (deliberation 27/7/84, law 475/88).

**14. Informazioni sul trasporto**

Keep away from food and drinks. Transport: RID, ADR, ICAO, IMO, IMDG not applicable.

**15. Informazioni sulla regolamentazione**

Cosmetic products are produced and sold following the law 713/86 and following changes (cosmetic law). Cosmetic products are clearly excluded to the national and EC laws on dangerous chemicals.

**16. Altre informazioni**
