pH	5.8 -6.80
Weight density	0.985-0.995

10. STABILITY AND RESPONSIVENESS

Normally stable at ordinary temperature.

11. TOXICOLOGICAL INFORMATION-HUMAN DATA

The use of hazardous substances in the product is approved by the Cosmetic Regulation 1223/2009 and subsequent amendments, and their concentration in the product cannot cause harm.

Eye/skin contact: Can be irritating to the eyes. In case of contact with eyes, rinse thoroughly with water.

In case of skin contact, rinse thoroughly with water.

Inhalation: Slightly irritating when inhaled.

12. ECOLOGICAL INFORMATION

Use the preparation according to good working practices, avoiding dispersing it into the environment.

13. DISPOSAL CONSIDERATIONS

Empty containers that still contain traces of the product are not classified as toxic or hazardous waste, provided that the quantity and nature of the residue is taken into consideration. They must be disposed of in accordance with applicable regulations by authorised specialist companies.

Similarly, unused products (such as obsolete or damaged items) must be disposed of in accordance with current legislation by qualified waste management companies.

It is important to note that the aforementioned regulations (Deliberation 27/07/84 and Law 475/88) are Italian national laws that specifically address the management of waste and chemical products within Italy. These are not European Union regulations per se. However, they operate alongside broader EU legislation, such as the REACH Regulation and the Waste Framework Directive (2008/98/EC), which establish common principles and rules for all member states. Each country, including Italy, implements specific measures based on these European frameworks.

In summary, the cited Italian legislation supplements the EU regulatory system, but does not constitute European law.

14. TRANSPORT INFORMATION

Hazardous material in limited quantities of class 2.

Technical name: aerosol.

IMO Class: Class 2.

Numero UN: 1950. N EMS: F-D, S-U.

Extremely flammable aerosol. Content under pressure. Keep away from direct sunlight and temperatures above 50 °C. Do not puncture or burn, even after use.
